

KINDRED Feature Specifications

Detailed Functional Requirements & User Experience Modules

1. User Onboarding & Identity

CORE Module: Seamless Web3 Onboarding

Objective: Abstract blockchain complexity for non-technical users while maintaining security.

Registration	Social login (Google/Apple) integrated with non-custodial wallet creation (Magic Link or similar).
KYC/Trust	Basic SMS verification required for first 10 \$KIND stipend release to prevent sybil attacks.
Profile	Selection of Skill Tags (e.g., #Plumbing, #IKEA_Assembly, #WiFi_Setup).

2. The Seeker Workflow (Task Marketplace)

CORE Module: Task Posting & Escrow

Visual Input	Mandatory multi-photo or 15-second video upload for issue diagnosis.
Smart Bidding	Helpers can "Offer Help" with a text pitch. Seeker selects preferred Helper.
Escrow Lock	On selection, \$KIND is moved to the Multi-Sig Smart Contract, visible as 'Pending' in both wallets.

3. Assistance & Guidance Engine

UTILITY Module: Real-Time Help Channels

Video Guidance	In-app encrypted RTC video call with 'Screen Freeze' & 'Annotation' tools for Helpers to circle parts on Seeker's camera view.
In-Person Match	Geofenced chat for coordinate meetup, with an "Emergency SOS" button visible during active in-person tasks.

4. Ascension & Gamification (Hero System)

REPUTATION Module: Influencer & Hero Mechanics

The Follow Button	Seekers can 'Follow' Helpers to be notified when they post new DIY guides or tips.
Hero Showcase	A feed on Master/Elder profiles for "Before & After" reels of tasks they've guided.
NFT Badges	Automatic minting of soulbound tokens (SBTs) upon reaching Ascension Tiers (Journeyman, Master, Elder).

5. Proof-of-Curation (Dispute Resolution)

GOVERNANCE Module: Community Court

Dispute Trigger	Seeker can pause release of funds if task is incomplete.
Evidence Log	System automatically snapshots chat logs and video call duration for Curators.
Voting	3-Curator anonymous panel votes on \$KIND distribution (Seeker Refund / Helper Payout / Split).

6. Local Anchor Integration

ECONOMY

Module: Merchant Redemption

QR Payments	Helpers scan merchant QR codes to pay a % of fiat bills using earned \$KIND.
Partner Portal	Simplified dashboard for local business owners to track KINDRED traffic and volume.
