

SAFETY & CONDUCT MANUAL

This manual establishes the non-negotiable safety standards and code of conduct for the KINDRED community. Adherence to these guidelines is a prerequisite for maintaining your status as a Seeker or Helper.

ZERO TOLERANCE POLICY: Any violation of the safety protocols, harassment, or attempt to bypass the \$KIND escrow system will result in immediate permanent suspension and forfeiture of staked assets.

1. The 5 Safety Checkpoints (In-Person Tasks)

- **Public Neutrality:** Whenever possible, meet in public or highly visible areas for the initial diagnosis or simple portable repairs.
- **Buddy Notification:** Users are required to use the "Share Task Location" feature within the app to notify an emergency contact before a physical meetup.
- **ID Verification:** Always verify that the person you are meeting matches the verified photo and name in the KINDRED app.
- **The Exit Strategy:** Both parties have the right to terminate an in-person session immediately if they feel uncomfortable, without financial penalty.
- **Safe-Zone Check:** In-app geofencing will prompt a "Safety Check-in" every 30 minutes during active physical tasks. Failure to respond will trigger an alert to the Community Support team.

2. Professional Conduct & Ethos

KINDRED is built on the "Brother's Keeper" principle. Helpers are mentors, not just contractors.

Standard of Communication

- Maintain a respectful, encouraging, and patient tone during guidance sessions.

- Explicitly avoid technical jargon that might confuse or intimidate the Seeker.
- Strictly no solicitation of fiat (cash) payments outside the \$KIND ecosystem.

3. Dispute & Community Court (PoC)

In the event of a disagreement regarding task quality or completion:

- **Pause, Don't Argue:** Immediately pause the task and trigger the "Request Review" button.
- **Evidence Collection:** Both parties must provide high-quality photos or video of the current state of the task.
- **Finality:** The decision of the assigned 3-Curator panel is final and binding. All \$KIND remains in Escrow until the decision is rendered.

4. Technical & Financial Safety

- **Private Keys:** KINDRED staff will NEVER ask for your wallet recovery phrase or private keys.
- **Secure Escrow:** Never begin work until the app confirms that the \$KIND bounty has been successfully locked in the smart contract.
